PEST CONTROL

**RATMAT**

RatMat is an innovative,
humane and cost effective
solution to protect
property from rodents.

**RATMAT**

Using the principles of an
electric fence, the **RatMat**
can be used as a long term
solution to prevent rats and
mice causing expensive
damage to property such
as motor vehicles.

The main safety feature of the RatMat
is the low energy pulse it uses, which is
effective in repelling small animals.

RATMAT

RatMat is ideal for use in many areas to protect your vehicles and machinery from rodent damage.

- The RatMat is safe and easy to install
- Can be used indoors and outdoors on a hard surface. Concrete is ideal. Do not lay on a carpet, earth, underlay or gravel
- The RatMat is safe, scalable, transportable and doubles as a hard-wearing floor surface
- If you are driving vehicles onto the mat, screw the mat down to prevent slippage/damage
- The box is able to deliver a shock more than 25m from the source in ideal conditions
- The flooring can be swept, vacuumed and pressure washed
- RatMat can be used to protect machinery, cars, dust bin lorries and combine harvesters. Its can also be used as a barrier on the entrance of warehouses or as a barrier product for quarantining goods.
- Each tile measures 310mm x 310mm.
